

Capturing your special day through candid and formal portraiture, InSight Photography is the perfect photographer to hire for your wedding. Being a former wedding coordinator, Vicky Hoffman, knows from inside out what your needs are on your special day. With InSight Photography you can simply enjoy your day knowing that those important shots and the small details will all be captured.

Your Engagement Portrait Session sets the stage for your wedding day. We take time to get acquainted and to talk about the details of your wedding day, while capturing the love and joy you share. Building a relationship, builds trust and that trust creates portraits with that added spark... *that extra ounce of shine!*

### *Clothing Decisions for Engagement Portraits*

Solid colors are extremely important..

Solid colors draw the attention to the focal point of your portrait, your face, rather than causing distraction with busy patterns, stripes, and bright colors. Color coordination lends harmony. While all clothing does not have to match, the colors should be harmonious, so that one person will not dominate the scene.

Long sleeves are best.

### *Gift Certificates*

We encourage you to actively use our gift certificate program. Certificates are available in any denomination and can be used toward any of our products, even you bridal package!

Gift Certificates can be obtained one of two ways...

- We provide you, or the person who is answering the question, "What do the bride and groom need?", with certificates to give to your friends and family. Your friends and family then contact us to arrange payment and activation of the certificate.
- Your friends and family can call us directly and we will mail them the certificate so they can personalize it before the big day.

### *Portrait Planning Consultation*

Prior to the wedding we will create a list of all the portraits that you wish to have taken on you wedding day so that you can relax and enjoy yourself.

### *On-Site Assessment of Locations*

To ensure successful wedding portraits, we will visit wedding day locations prior to the big day. This way we have knowledge of special features, lighting, and available resources to help make your portraits truly memorable.

## InSight Photography's Custom Albums

Artistically designed and beautifully constructed, custom albums are the perfect way to remember and share your beautiful day. These hardbound, professionally printed albums include all the details of your wedding day. You choose the portraits that are included and any poems, dedications and other details you wish. InSight Photography will design your book for you.

Have your photo on the front of your album with the Custom Hard Cover Album or enjoy the sleek faux suede cover that comes in black or dark blue with optional silver or gold stamping with the Suede Hard Cover Album.

Our Soft Cover Albums are the perfect thank you gifts for your family and bridal party. Create special albums for each individual person with a personalized selection of photographs you know they would especially enjoy or simply order multiple copies of the same album and enjoy the reduced cost.
